

AMERICAN INDIAN CHRISTIAN MISSION

Celebrating 50 Years of Service 1969-2019

924 Mission Lane, Show Low, AZ 86901 | (928) 537-5912 | www.AICM.ORG

We are listing some of the projects that we are working on currently. The first one I want to show you is our school library. We have a drainage problem that needs to be repaired. The school library is in a partial basement with a walk out on the west side. We have been having some water leakage through the foundation at times and is getting worse. We had a monsoon type rain recently and it flooded the library. We have a team from Indiana coming out in June that has a contractor that specializes in water and drain management systems. They are planning to install a perimeter drainage system, seal the foundation and install a sump system inside to manage any water that may come in in the future. We have currently removed the books, shelving and damaged drywall around the room to prepare for the team. As we figure the cost of the drainage system, drywall work, some new shelving, painting, and carpet it will most likely be around \$18,000 to \$20,000 when it is all said and done. Let us know if you would like to help with repair the AICM school library for our students. Lord willing, we plan to have it done by the start of school next year.

Serving together,

Jeff Cline
